

# Intelligence in Subsurface Infrastructure

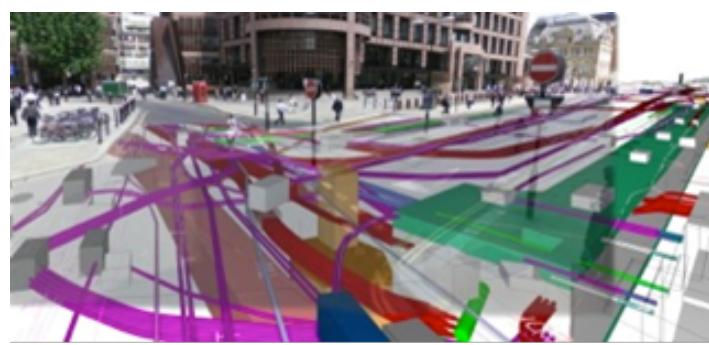

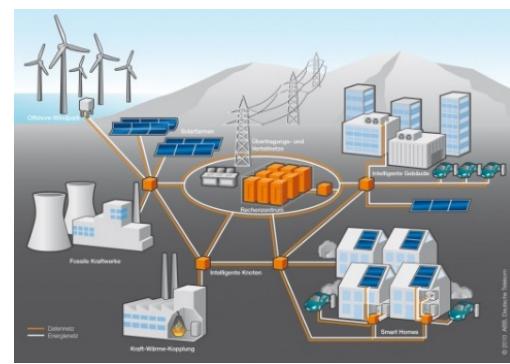

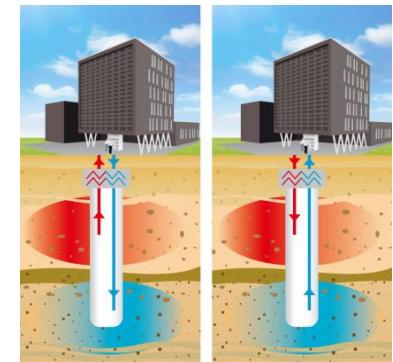

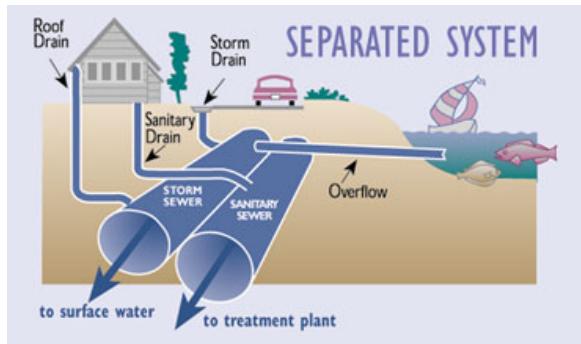

Léon olde Scholtenhuis, Carl Schultz, Sisi Zlatanova

27 November 2017 . University of Twente . Enschede

# what's already there ...

Europe: > 90% utilities **buried**

more being added...

# on-site excavation incidents

In the Netherlands:  
€ 100-130 mln. damage due to excavations (source: Kwink Group)  
33.000 reported cases of excavation damage (Cadaster 2015)

Subsurface Waste Container

Gewonden bij gasexplosie Den Haag

Zeker zee mensen zijn maandag gewond geraakt door een gasexplosie in Den Haag. Dat meldde de brandweer. Een gasleiding aan de Hortensestraat werd geraakt tijdens werkzaamheden om een gat voor een ondergrondse afvalcontainer te graven.

**3 June 2016**  
0 injuries ...

# workshop goals

- bring diverse experts together to meet
- identify interests and relationships in theme of subsurface infrastructure
- build momentum around research topic:  
“intelligence in subsurface infrastructure”
- plan next steps

# diverse expertise

Civil Engineering

Construction Management

Change and technology adoption

Architecture and Urbanism

3D Modelling

3D Geoinformation

Geo-spatial data modelling

Artificial Intelligence

ICT

Machine learning

(participant introductions)

**Sisi Zlatanova**  
Architecture and the Built Environment  
Delft University of Technology

3D object reconstruction, 3D data structures, 3D geo-databases, 3D spatial relationships (topology),  
3D visualisation (VR and AR)

**Søren Wandahl**  
Construction Management  
Aarhus University

energy efficient construction processes and  
optimization of construction processes

# Schedule

10:45	Day Introduction	Léon, Carl
11:00	Research Presentation	Carl Schultz
11:20	<i>Coffee break</i>	
11:35	Research Presentation	Sisi Zlatanova
11:55	Research Presentation	Léon olde Scholtenhuis
12:15	<i>Lunch</i>	
13:30	Research Presentation	Erik Klems, Lasse Hedegaard
13:50	Research Presentation	Nicole Metje
14:10	Research Presentation	Mark van der Meijde

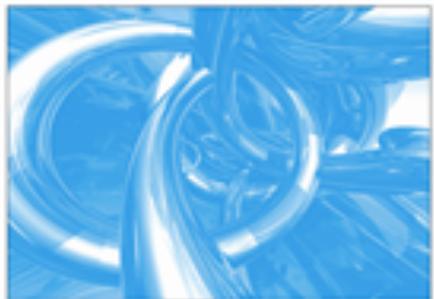

# Schedule

14:30	<i>Coffee break</i>	
14:45	Research Presentation	Fransje Hooimeijer
15:05	Research Presentation	Mehul Bhatt
15:25	Research Presentation	Mila Koeva
15:45	Research Presentation	Tatjana Kutzner
16:05	<i>Break and refreshments</i>	
16:30	Presentation on EU funding opportunities	Melanie Braamhaar (EU Office)
17:30	Concluding discussion, remarks on follow-up, drinks

# Smart Cities' buried infrastructures: engineering the silent servants of urban space

## (planned Special Issue in IJ3DIM)

- theme: concepts, approaches, techniques for managing city undergrounds
- indicate your interest to us (500 word abstract) by **7 December 2017**
- SI topics:
  - remote sensing for subsurface utilities
  - modelling lifecycle data
  - multi-stakeholder construction issues
  - visualisation
  - collaborative planning
  - semantic data models
- full manuscript due 4 months after SI approval
- will be open call, prioritise workshop delegates
- external peer review

# Geo Delft 2018

## session track: **Intelligence in Subsurface Infrastructure**

dates: 1 - 5 October 2018 (submit end of March)

communities: ISPRS, FIG, UDMS, 3D GeoInfo

topics: data collection, advanced modelling, data management,  
data analysis, dissemination, visualisation
